

Papamoa Primary School

Understanding our new Report Format

Written Report:

The most significant change you will notice is that the report format now includes a graphic that demonstrates student progress in Reading, Writing and Mathematics (National Standards). These graphics are designed to help you identify where your child was at in each of those areas at the beginning of the year and where they are at now. Please see fig 1 example.

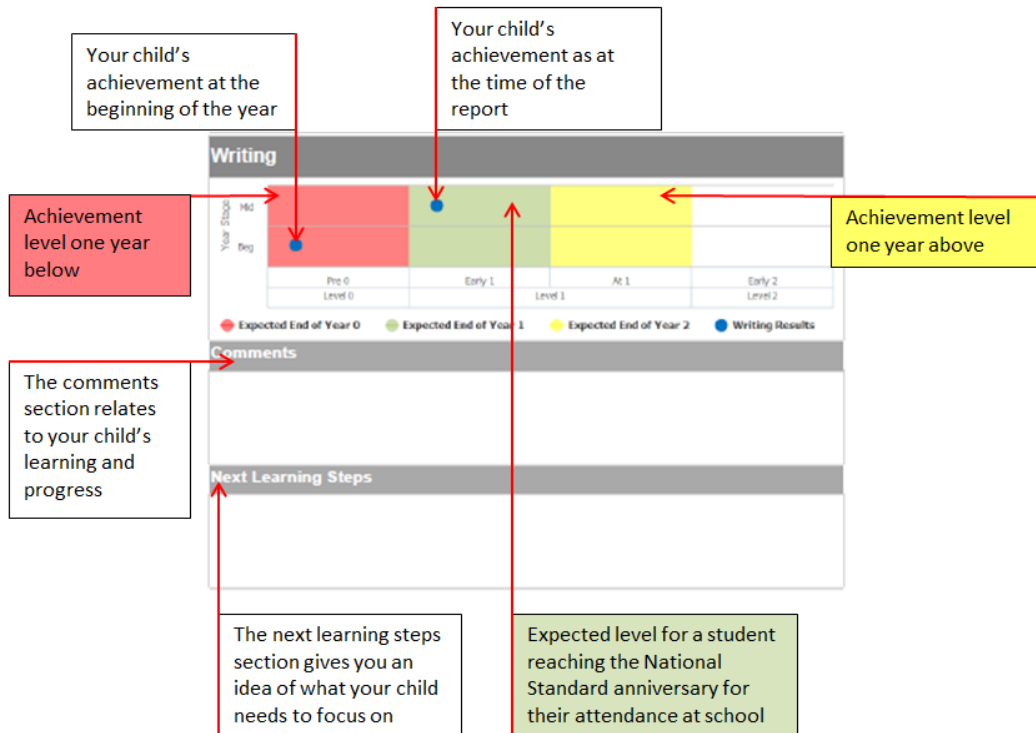

fig 1.

Additional supporting information about National Standards and expectations at each standard are available from our school website: http://www.papamoa.school.nz/parent_information
