Please keep this document for future reference. After the registration cut off dates, it will take a few weeks to organise and inform everyone about teams. Once teams are made up your contact details will be given to coaches and managers who will contact you with more detailed information. If teams don't have a coach or manager, the parents of the team will be notified asking for help because if there is **NO Coach or Manager teams, will not be registered.** Touch also requires teams to find their own referees.
